

Fixed Plasma Stand FPS-60, FPS-72, FPS-84

Form E-427

Caution!

This product is designed for floor installation only. Qualified personnel using appropriate fasteners should mount unit to the floor.

Tools Required

9/16" socket, ratchet, and extensions.

Procedure

1. Remove contents from carton and examine.
2. Determine which model of stand you have by referring to the chart to the right.
3. Bolt Fixed Base Assembly to the floor in desired location with appropriate mounting hardware (not supplied).
4. Insert two Columns into the Fixed Base Assembly and install the fasteners shown (F). Leave loose at this time. See figure 1.
5. Install two metric knobs (B) into the Shelf Assembly and the Top Assembly.
6. Slide the Shelf Assembly down the Columns. Position the Shelf by tightening both knobs.
7. Slide the Top Assembly down the Columns. Position the Top by tightening both knobs.
8. Tighten the fasteners (F) at the bottom of the Columns.
9. Position the Plasma Mount on the Top Assembly. Secure Plasma Mount by installing two lock plates (D) and securing with fasteners provided (E). See Figure 2. The Large Knob in the back of the Top Assembly is used to control tilt of the Plasma Mount.
10. Refer to instruction sheet E-408 for installation of the plasma unit.
11. For security, install padlock (C) on Top Assembly. See Figure 2. Install fasteners (E) into top of Columns for theft deterrent.

Stand model	Length of Columns
FPS-60	46-3/4"
FPS-72	58-3/4"
FPS-84	70-3/4"

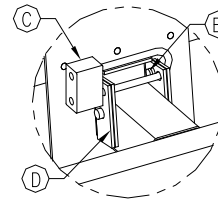

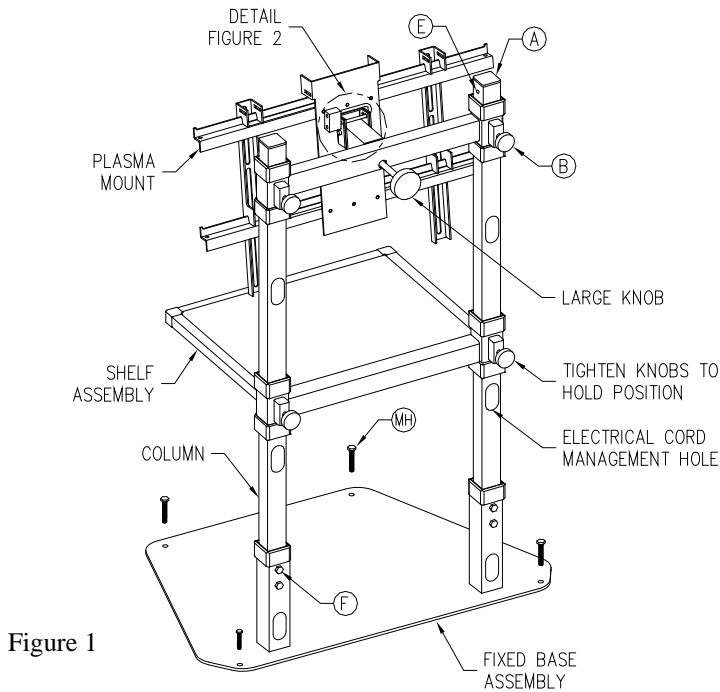

Figure 2
